Volta, Anak Perusahaan Patungan NFCX – MCAS Group dan SiCepat Sukses Ramaikan Indonesia E-Vehicle Expo dan Sekarang Tersedia di Blibli

Jakarta, 04 Nov 2021 – Pameran Indonesia E-Vehicle Expo 2021 yang dilangsungkan oleh Badan Standarisasi Nasional (BSN) di Outdoor Area Ciwalk Mall, Bandung, Jawa Barat pada 2-4 November 2021 telah memasuki penghujung acara. PT. Volta Indonesia Semesta, anak perusahaan patungan PT NFC Indonesia Tbk (IDX: NFCX) – MCAS Group dan SiCepat sebagai salah satu pemain baru di industri kendaraan listrik Indonesia yang juga turut berpartisipasi meramaikan pameran kendaraan listrik Indonesia E-Vehicle Expo 2021 ini, telah sukses mendebatkan kendaraan listrik berteknologi tinggi miliknya. Membawa tiga unit motor listrik Volta tipe 401 beragam warna dan berdesain modern, Volta sukses menyita perhatian pengunjung dengan spesifikasi teknologi motor listrik yang mengusung konsep Sistem Ganti Baterai (SGB).

Willy Awan, Direktur PT. Volta Indonesia Semesta menyampaikan, “Kami melihat antusiasme masyarakat akan kendaraan listrik berkualitas ini bagus. Hal ini dibuktikan dengan mereka yang mengunjungi booth Volta dan menanyakan berbagai hal berkaitan dengan cara kerja motor listrik yang merupakan hal baru bagi kita. Melalui pameran ini, kami harap kedepannya masyarakat bisa lebih *aware* bahwa dengan beralihnya kita ke kendaraan listrik yang lebih ramah lingkungan, kita juga turut berkontribusi pada keberlangsungan lingkungan yang lebih sehat, tanpa polusi”.

Gambar 1: Motor Listrik Volta Tipe 401 ditampilkan pada pameran Indonesia E-Vehicle Expo - Bandung

Pemerintah dalam hal ini juga semakin mendukung perkembangan industri kendaraan listrik di Indonesia dengan memberikan berbagai kemudahan. Salah satunya adalah pemberian insentif fiskal dan non-fiskal bagi konsumen BEV, seperti pengenaan Pajak Pertambahan Nilai Barang Mewah (PPnBM) sebesar 0 persen (PP No 74/2021), pajak atas penyerahan hak milik kendaraan bermotor (BBN-KB) sebesar 0 persen untuk KBLBB di Pemprov DKI Jakarta (Pergub No 3/2020).

Melihat dukungan pemerintah yang besar dalam pengembangan ekosistem kendaraan listrik di Indonesia, Volta optimis dapat mendobrak pasar *electric vehicle* Indonesia dengan unit motor listriknya. Melalui tipe 401 yang dipamerkan dalam Indonesia E-Vehicle Expo 2021, Volta menawarkan motor listrik berbodi langsing dan desain modern yang dilengkapi dengan sistem baterai SGB berkapasitas 60V 23A. Dengan bekal ini, Volta 401 mampu melaju hingga jarak 60 km. Selain itu, Volta 401 juga dilengkapi dengan fitur LCD Digital Speedometer, LED Lamp, Remote Alarm, Keyless Ignition System, Double Batteries Slot, hingga USB Charging Port yang memberikan kemudahan bagi pengendara. Tak ketinggalan, unit Volta 401 juga dilengkapi teknologi Internet-of-Things (IoT) yang berguna dalam mengatur penggunaan baterai melalui platform digital yang didukung oleh NFCX.

Berkomitmen dalam memberikan pelayanan dan purna jual terbaik bagi *customer*, unit motor listrik Volta dapat dibeli melalui dealer resmi Volta yang juga menyediakan layanan 4S (Sales, Service, Spare Part, dan SGB). Atau, masyarakat juga dapat membeli unit motor listrik Volta secara online melalui platform e-commerce, Blibli. Pembelian motor listrik Volta juga dapat dilakukan secara bertahap atau cicilan 0%, selengkapnya bisa klik di link <https://www.blibli.com/merchant/volta-ev-indonesia/VOE-60029>

Press release

Volta, a Joint Venture Company of NFCX – MCAS Group and SiCepat, Successfully Enlivens Indonesia E-Vehicle Expo, Now Available on Blibli

Jakarta, 04 Nov 2021 – The Indonesia E-Vehicle Expo 2021 exhibition held by the National Standardization Agency (BSN) at the Outdoor Area of Ciwalk Mall, Bandung, West Java on November 2-4, 2021 has entered the end of the event. PT. Volta Indonesia Semesta (“Volta”), joint venture company of PT NFC Indonesia Tbk (IDX: NFCX) - MCAS Group and SiCepat, as one of the new players in the Indonesian electric vehicle industry, participated in enlivening the Indonesia E-Vehicle Expo 2021 electric vehicle exhibition and successfully debuted its high-tech electric vehicle. Bringing three units of the Volta type 401 electric motor in various colors and modern designs, Volta has successfully captured the attention of visitors with its electric motor technology specifications that carry the concept of a Battery Replacement System (SGB).

Wilty Awan, Director of PT. Volta Indonesia Semesta said, “We noticed that the public's enthusiasm for this quality electric vehicle is good. This was evidenced by the various questions we fielded, from people who visited our booth, related to the workings of electric motors. Some of which were new to us as well. Through this exhibition, we hope that in consumers will be well-informed about the benefits of switching to electric vehicles that are more environmentally friendly. In doing so, they can contribute to the sustainability of a healthier environment, without pollution.”

Figure 1: Volta Electric Motor Type 401 participates in the Indonesia E-Vehicle Expo - Bandung

The government is also increasingly supporting the development of the electric vehicle industry in Indonesia by providing various facilities. One of them is the provision of fiscal and non-fiscal incentives for BEV consumers, such as the imposition of a Luxury Goods Value Added Tax (PPnBM) of 0 percent (PP No. 74/2021), a tax on transfer of motor vehicle ownership rights (BBN-KB) of 0 percent. for KBLBB in DKI Jakarta Provincial Government (Pergub No. 3/2020).

Seeing the strong government support in the development of the electric vehicle ecosystem in Indonesia, Volta is optimistic that it can break into the Indonesian electric vehicle market with its electric motor unit. Through the type 401 exhibited at the Indonesia E-Vehicle Expo

2021, Volta offers an electric motor with a slim body and modern design equipped with an SGB battery system with a capacity of 60V 23A. With this provision, the Volta 401 is capable of driving up to a distance of 60 km. In addition, the Volta 401 is also equipped with LCD Digital Speedometer, LED Lamp, Remote Alarm, Keyless Ignition System, Double Batteries Slot, and USB Charging Port features that make it easy for drivers. Not to forget, the Volta 401 unit is also equipped with Internet-of-Things (IoT) technology which is useful in managing battery usage through a digital platform supported by NFCX.

Committed to providing the best service and after-sales for customers, Volta electric motor units can be purchased through authorized Volta dealers who also provide 4S services (Sales, Service, Spare Parts, and SGB). Alternatively, the public can also purchase Volta electric motor units online through the e-commerce platform, Blibli. The purchase of a Volta electric motorbike can also be done in stages or in 0% installments, for more details, click on the link <https://www.blibli.com/merchant/volta-ev-indonesia/VOE-60029>.
