Volta is one of the domestic electric motorcycle brands that consistently strives to maximize its role to provide a leading experience for users driving electric motorcycles. Aquarius added that in addition to supporting government programs, this initiative is also a solution for people looking for more efficient and environmentally friendly transportation alternatives.

Other complementary products were also launched and can be accessed by customers on the Sukha feature, including the sale of electric motor accessories in the form of batteries and chargers, Battery Swap System (SGB) Vouchers, and Electric Motorcycle Rental Vouchers. Bank Mandiri consistently supports using electric vehicles in Indonesia, which experienced a 383% increase in national sales in 2022 compared to the previous year. This is reflected in Bank Mandiri's support at the G20 event and charging station support at Bank Mandiri's head office.
